

Calpeda FLOW

Smart monitoring for your assets

Take control with an intuitive mobile app designed for seamless monitoring and control of your Calpeda pump systems.

Calpeda Flow empowers installers and pump users with:

Enhanced Control

Monitor and understand your pump's performance in real-time.

Increased Efficiency

Optimize energy consumption and identify potential inefficiencies.

Reduced downtime

Proactively address issues with detailed alerts and historical data.

Simplified Maintenance

Facilitate faster troubleshooting and communication with service teams.

Remote Accessibility

Monitor your pumps from anywhere, anytime.

Whether you're an installer ensuring optimal performance or an end-user seeking reliable operation, Calpeda Flow puts vital pump data at your fingertips, empowering you to maximize efficiency and minimize downtime.

Real-Time insights, right in your hand

Calpeda Flow provides a clear and instant overview of your pump's status, displaying:

Current Operating State

Know immediately if your pump is running, on standby, or in a fault condition.

Real-Time Pressure Readings

Monitor the current pressure of your system directly from your mobile device.

Energy Consumption

Keep track of power usage to optimize efficiency and identify potential issues.

Key features & benefits

- Proactive Maintenance with Intelligent Alerts
- Visualize Performance with Dynamic Charts
- Streamlined Support with Integrated Media Sharing
- Historical Data at Your Fingertips with Event Logs
- Unlock Remote Monitoring with Cloud Connectivity
